

Statement of peer review policies

PRZEGLĄD WSCHODNIOEUROPEJSKI

ISSN 2081-1128

1. Each publication is assessed by at least two independent and outside reviewers.
2. In the case of texts written in a foreign language, if necessary, at least one of the reviewers is affiliated with a foreign institution, other than the nationality of the author of the work.
3. The double-blind review model is used, according to which authors and reviewers do not know their identities. The editorial staff makes sure that there is no conflict of interest in the case of peer-review. A conflict of interest is considered to be the following between the reviewer and the author: a) direct personal relationships (kinship, legal relationships, conflict); b) relationships of professional subordination; c) direct scientific cooperation in the last two years preceding the preparation of the review.
4. The review is in writing and ends with an unambiguous conclusion as to whether the article can be published or rejected.
5. The review form is available on the journal's website.
6. The names of the reviewers of individual publications/issues are not disclosed. The list of reviewers constantly cooperating with the journal is provided in each issue on the editorial page, as well as on the journal's website.
