TEST

Etap wojewódzki 2019/2020

Kod ucznia: _____

Liczba uzyskanych punktów: _____ / 95

Wynik procentowy: _____ %

INSTRUKCJA DLA UCZNIĄ

Przeczytaj uważnie instrukcję i postaraj się prawidłowo rozwiązać wszystkie zadania.

- Przed przystąpieniem do pracy sprawdź czy Twój test jest kompletny. Jeśli zauważysz usterki, zgłoś nauczycielowi.
- Zadania czytaj uważnie i ze zrozumieniem.
- Na napisanie testu i przeniesienie rozwiązań na kartę odpowiedzi (ANSWER SHEET) masz 75 minut.
- Odpowiedzi wpisuj niebieskim lub czarnym długopisem. Odpowiedzi zaznaczone ołówkiem nie będą brane pod uwagę.
- Nie używaj korektora. Jeżeli się pomylisz, przekreśl błędną odpowiedź i obok napisz poprawną.

Powodzenia!

I Read an article about technological advances. Seven sentences have been removed from the article. Choose from the sentences A-H the ones which fit each gap (1-7). There is one extra sentence which you do not need to use. (7 points)

Have technological advances had a positive impact on people's lives?

0.I..... Never mind improving people's lives, it accounts for the increase in pollution and **exploitation**. Lots of people are killed in wars because of so-called technological advances. As for the expansion of access to the Internet, there are millions of people in the world who haven't even made a phone call yet!! **1)** Technological advances because of their uneven distribution actually have a negative effect on people's opportunities. Major technological change is basically destroying the planet.

2) It's really all about **greed**. I guess this is more to do with human nature rather than technology itself, though.

Jane

It's true, technology has **altered** people's lives but I'm not sure it's been for the better. **3)** We're now **reachable** 24 hours a day and we expect instant answers, and this **impacts** on people's work/life balance. There are also the dehumanising effects of technology – we've become slaves to machines. What about the dangers of things like GM crops – or 'Frankenstein food'? It's dangerous to mess about with nature. **4)** Look at all those kids who would rather play a computer game than kick a ball around.

Jose

Technology can fix all society's problems. Even during wars there's a great **impetus** for technological development. **5)** They will reduce the carbon footprint. BTW, those of you who think technology is so bad: WHY ARE YOU USING THE INTERNET TO TELL US THIS?!!

Andrea

Technology is a double-edged sword. There have been radical changes brought about by inventions like the telephone, car and the Internet. **6)** It's the way it is used which is important. For example, some technological advances are not always used in a good way. What about the rise in cosmetic surgery, artificial intelligence, cloning, designer babies, people living forever? Where is technology taking us? This, together with a move towards an ever-grater **reliance** on technology is leading us to a nightmare vision of the future.

Arwa

All the really fundamental changes have been connected to advances in technology. **7)** And what about the general **extended** life expectancy? What about transport and communication? Some people have always been anti-technology. There are always dramatic changes going on, especially now, in terms of communication. The Internet is amazing and has had an awesome effect on people's lives.

Steven
Adapted from Language Leader Coursebook Pearson Longman 2010 David Cotton, David Falvey, Simon Kent, Ian Lebeau, Gareth Rees

- A** There's a real digital divide.
- B** But, the important thing is that control of technology is power.
- C** It is said that technological development has given people more leisure time than they used to have.
- D** Advances in technology breed laziness and contribute to a **sedentary** lifestyle.

E Think about all the lives which have been saved due to **breakthroughs** in, for example, medicine.

F I doubt we can save it in time.

G A lot of stress stems from the fact that technology speeds everything up in our already fast paced world.

H Cars which cause pollution resulting in global warming are now being **superseded** by hybrid and electric ones.

~~I~~ *Technology has a lot to answer for.*

II In the text some of the words are underlined and in bold. Match them with the following English definitions. Watch out! There are FOUR extra words that do not match the definitions. (7 points)

0. easily approached, accessible –.....**reachable**.....
