

Department of General Surgery was established in June of 2008 on base of Surgical Ward of ZOZ MSWiA with WMCO in Olsztyn. General Surgery Clinic in this hospital, Clinical Ward of General and Vascular Surgery in Wojewodzki Hospital, Clinical Ward of General and Minimal Invasive Surgery of University Hospital and Emergency & Accident Ward in ZOZ MSWiA hospital were incorporated. Department is diagnostic and scientific unit in surgical, endocrine and gastroenterologic range. Modern radiologic and endoscopic diagnostics allows recognising surgical diseases (including neoplasms) even in early stages. Medical procedures are certificated by ISO and Accreditation Committee. People employed in Department are active participants in scientific congresses and symposiums. They lead researches which create the future in surgery.
